## Chanel XL Flap Bag

Chanel's flap bag is such a classic act in the high-end fashion bag industry

One that is here to stay and is loved by bag-aholics across the world, the flap bag casts such powerful spell on women that is just too hard to resist. What's not to love about this vintage bag that just exudes femininity, confidence, grace and above all timelessness? With the growing everyday needs of a strong and empowered woman in mind, fashion powerhouse Chanel conceived and designed different sizes of its flap bag to perfectly fit not only the hands but also the lifestyle and preference of a chic cosmopolitan lady.

From extra mini, mini rectangular, mini square, small, medium, jumbo and maxi, and with several colors and fabrics to choose from, a woman might find herself in a Chanel shopping dilemma.

Women who would like to own a classic Chanel piece with a sleeker and more polished look will find their best friend in its XL jumbo flap back.

Considered a holy grail among the elite and illustrious, the quilted leather and chain straps makes this one a classic over and above other equally trendy fashion bags.
