That's not the ratio Amazon reports in its annual proxy filing, released yes

terday. There, the company calculates median pay vs. CEO compensation using Bezo

s's salary-a comparatively modest \$1,681,840. Based on that figure, Bezos ma

de just 59 times his median employee.

The difference highlights the shortcomings of the compensation reporting require

ment, enacted for public companies following the 2008 financial crisis. Billiona

ire entrepreneurs like Bezos rarely receive sky-high salaries; instead, their we

alth is tied up in their stock holdings. The \$35.1 billion that Bezos accumulate

d based on Amazon stock increases is not liquid in the same way that his employe

es's payroll checks are, but his new net worth does have an immediate effect

on his buying power. Over time, he'll be able to cash out as he pleases.

The Intercept reported on Thursday that one in three Amazon warehouse employees

in Arizona depend on food stamps, or Supplemental Nutrition Assistance Program () Tj T* BT

In Arizona, new data suggests that one in three of the company's own employe

es depend on SNAP to put food on the table. In Pennsylvania and Ohio, the figure

appears to be around 1 in 10. Overall, of five states that responded to a publi

c records request for a list of their top employers of SNAP recipients, Amazon c

racked the top 20 in four.

In the shareholder letter that accompanies the proxy filing, Bezos credits a cul
