What is the spread in sports betting?

The spread, also referred to as the line, is used to even the odds between two u

nevenly matched teams.

The -3 points is the spread.

If the Colts win by two points, you would lose the bet because they didn't

hit the key number of three.

The spread at -3 suggests the teams are fairly equal and maybe in this case, the

Colts are only -3 because they are playing at home.

Bookmakers see these teams as equal and expect to receive fairly even money fro  
m bettors.

If these teams were widely considered equal and bookmakers put the spread at -1
