There are many different variations of how people play football squares, also kn

own as Super Bowl Squares.

Most people play during the Super Bowl, but squares can be played for any other game, or in some cases you can use the same squares for multiple games (Example) Tj T* E

Now assign one team to the columns, and one to the rows.

Once all the squares have been filled, it is time to assign the numbers.

Now each square represents a specific score in the game based on the column and row numbers.

Your Football Squares grid is now complete, and you just need to wait til the game is played to determine who will be your winners.

The winner is determined by looking at the last number in each of the teams \$\& #39\$; score, and then matching those numbers on the grid and seeing which square int ersects those two numbers.

Payouts for the winners vary depending on your setup, but usually the 1st throug h 3rd quarter get about 20% of the pot each, and the final score would get the r emaining 40%. Other Options
